EXPERIENCE

CO-FOUNDER

Fractal Technologies Ltd. | Jan 2022 - Mar 2025

Yeslend Project

Next.js, Payload CMS, UI/UX Design

- Developed the UI/UX design and built the website for Yeslend, a financial services platform offering personal, mortgage, and business loans. The platform integrates with multiple financial institutions to streamline loan applications.

KEY CONTRIBUTIONS

- UI/UX Design: Created a user-friendly interface to enhance customer engagement and simplify loan application processes.
- Website Development: Built the website using Next.js, ensuring a responsive and efficient user experience.
- Content Management System (CMS): Integrated Payload CMS to manage content efficiently, enhancing the platform's flexibility and scalability.

Structural Design Project

Python/SAP2000

- Designed structural solutions for antenna support on residential rooftops using Python to automate SAP2000 model generation.
- Prepared and conducted structural calculations in Excel, compiling comprehensive reports for submission to the Buildings Department.

ENGINEER III TO I

CM Wong & Associates Ltd. | Oct 2018 - Nov 2021

AutoCAD/SAP2000/ETABS SADS

KEY CONTRIBUTIONS

Residential Development at NKIL 6563, Kai Tak Area 1L, Site 2 Kai Tak, Kowloon | Aug 2020 - Nov 2021

- Designed two 39-storey towers and four 8-storey houses
- Developed ETABS, SAFE, and SADS models for superstructure, wind calculation, and RC (reinforced concrete) designs.
- Assist in daily project activities coordination with clients, architects, contractors, and other consultants.

Residential Development at NKIL 6554, Kai Tak Area 4A, Site 2 Kai Tak, Kowloon | Mar 2021 - Nov 2021

- Implemented ETABS, SAFE, and SADS models to design the superstructure, optimize transfer plates, and perform wind and RC (reinforced concrete) analyses for a residential project featuring four 30-storey high-rise towers and an 8-storey clubhouse
