DEVELOPER

EXPERIENCE

FRONTEND DEVELOPER

Continuous Technologies International Ltd. (CTINT) | Mar 2025 - Present  
React / TypeScript / CRM & Contact Center Solutions

- Developing enterprise contact center solutions within CTINT's Customer Delight Solution Suite (CDSS), contributing to both core product features and client-specific customization projects.

PRODUCT DEVELOPMENT

- Developed email auto-reply configuration module allowing users to create, edit and manage rule-based triggers and response templates.
- Built Text-to-Speech (TTS) management portal allowing users to create, edit and manage voice content for IVR phone systems, featuring complete version control for content tracking and rollback.

CLIENT PROJECTS

- BUPA Hong Kong: Developed customer tagging management system enabling bulk import, binding, and administration of customer tags; the system provides agents with tag visible during inbound/outbound calls.
- Shanghai Commercial Bank: Built regulatory compliance audio system for Relationship Managers to deliver and record T&C acknowledgements during customer calls, with integrated playback controls and response logging.

CO-FOUNDER

Buddy Ride Ltd. | Jan 2024 - Mar 2025  
Next.js/React Native/Cloudflare Worker/Convex

- Developed and launched a comprehensive cross-border ride-sharing platform connecting passengers between Hong Kong and Macau, implementing full-stack solutions with Next.js web platform, React Native mobile apps, and real-time backend operations using Cloudflare Worker and Convex.

KEY CONTRIBUTIONS

- Platform Development: Built full-stack web and mobile applications with user authentication, ride matching, and real-time trip tracking features for cross-border transportation services.
- System Architecture: Deployed scalable cloud infrastructure using Cloudflare Workers and Convex, designed to handle future growth in cross-border transportation demand.

EDUCATION

|                                     |  |
|-------------------------------------|--|
| Master of Civil Engineering         |  |
| Swansea University                  |  |
| 2015 - 2018                         |  |
| Higher Diploma in Civil Engineering |  |
| IVE                                 |  |
| 2013 - 2015                         |  |

SKILLS

FRONTEND

|              |  |
|--------------|--|
| TypeScript   |  |
| React        |  |
| NextJs       |  |
| React Native |  |

BACKEND & DATABASE

|          |  |
|----------|--|
| PHP      |  |
| Python   |  |
| Convex   |  |
| Supabase |  |
| Laravel  |  |
| SQL      |  |

CLOUD & INFRASTRUCTURE

|            |  |
|------------|--|
| Cloudflare |  |
|------------|--|

DESIGN & TOOLS

|           |  |
|-----------|--|
| Figma     |  |
| Github    |  |
| LangChain |  |

AI-ASSISTED DEV

|             |  |
|-------------|--|
| Claude Code |  |
| Cursor      |  |

ENGINEERING SOFTWARE

|          |  |
|----------|--|
| AutoCAD  |  |
| SAP 2000 |  |
| ETABS    |  |
| SADS     |  |
| MATLAB   |  |
